

ResusX 2020 CME Information Statement

Accreditation: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of EB Medicine and Scimple Education, LLC. EB Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation: EB Medicine designates this activity for up to 24 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Needs Assessment: The need for this educational activity was determined by a survey of medical faculty and experts in critical care, review of evaluations from previous conferences, and a practice gap analysis.

Target Audience: This activity is designed for emergency physicians, physicians in primary care, nurse practitioners and physician assistants working in ambulatory and emergent care settings.

Goals: The purpose of this activity is to provide attendees with current evidence-based practice information, specifically in the areas of emergency critical care, point-of-care ultrasound, advanced airway management, and resuscitation.

Objectives: Upon completion of this activity, you should be able to: (1) Utilize best practices in management of cardiovascular and hematological emergencies, such as cardiac arrest, ACS, hemorrhage, and cardiogenic shock; and apply techniques to improve outcomes when obtaining IV/IO access, utilizing REBOA, and assessing patients with ECG, echocardiogram, and ultrasound; (2) Utilize best practices in management of airway and ventilation emergencies; and apply techniques to improve outcomes when performing intubation, laryngoscopy, supraglottic airway, and ECMO, and assessing patients with lung ultrasound; (3) Utilize best practices in management of cardiovascular and hematological emergencies, such as increased ICP, neurological disasters, and CAD; (4) apply techniques to improve outcomes in resuscitation when assessing lactate and D-dimer levels, managing fluid volume, utilizing vasopressors, and assessing patients with ultrasound; and (5) Utilize best practices in management of resource management, including proper resource allocation, trauma team management, and utilizing all staff effectively during a code.

Faculty Disclosure: It is the policy of EB Medicine to ensure objectivity, balance, independence, transparency, and scientific rigor in all CME-sponsored educational activities. All faculty participating in the planning or implementation of a sponsored activity are expected to disclose to the audience any relevant financial relationships and to assist in resolving any conflict of interest that may arise from the relationship. In compliance with all ACCME Essentials, Standards, and Guidelines, all faculty for this CME activity were asked to complete a full disclosure statement. The information received is as follows: Dr. James DuCanto reported relevant financial relationships with PMT Partner, CookGas, UE Medical Devices, Hoya/Pentax, and Ambu-King Systems; these conflicts of interest have been mitigated and resolved by peer review and ensuring that recommendations of evidence-based. None of the other faculty reported any relevant financial relationships.

Commercial Support: SonoSite has provided online access to ultrasound imaging. AMBU has provided scope equipment for demonstration purposes and an educational grant.

Earning Credit: To earn credit, attend the sessions, and complete the post-test and the evaluation form.

Accessibility: EB Medicine is committed to making its CME activities accessible to all individuals. If you are in need of an accommodation, advance notification will help us to better serve you.
